Dr. Ricordi is the Stacy Joy Goodman Professor of Surgery and Director of the Diabetes Research Institute and Cell Transplant Center at the University of Miami. He is well-known for inventing the method to isolate pancreatic islets, for performing the first successful series of clinical islet allotransplants, and for Chairing the NIH CIT Consortium that successfully completed two FDA Phase 3 islet transplant trials. He has received numerous honors and awards, including the World Prize in Surgery (University of Geneva) and the Outstanding Scientific Achievement Award (American Diabetes Association).
